CONSIDERANDO

Las tarifas por la prestación de los servicios de la Comisión Estatal de Aguas objeto del presente Acuerdo, han de fijarse en forma proporcional y equitativa en cumplimiento a lo dispuesto en el artículo 31 fracción IV de la Constitución Política de los Estados Unidos Mexicanos. Asimismo, en estricto apego a esta disposición constitucional, han de establecerse en forma tal que correspondan al costo del servicio, considerando los beneficios recibidos por los usuarios, sus posibilidades económicas y razones tales como la necesidad de racionalizar el consumo del agua, promover su ahorro, y asegurar su uso eficiente e idóneo, a través de los mecanismos más adecuados como lo es una estructura tarifaria pertinente.

Del mismo modo, las tarifas contenidas en el presente Acuerdo y la estructura tarifaria correspondiente consideran el costo que representa para el Organismo la obtención, extracción, potabilización, distribución, desalojo y tratamiento del agua y demás actividades que se requieren para la operación y prestación de sus servicios, que ha de verse reflejado fundamentalmente en el cobro del consumo de agua potable, alcantarillado y saneamiento.

Las tarifas y estructura tarifaria objeto del presente Acuerdo están basadas en el estudio socio-económico correspondiente realizado por el Vocal Ejecutivo de la Comisión Estatal de Aguas y aseguran la continuidad de estos servicios en el Estado. Dichas tarifas a aplicarse por metro cúbico de agua consumida, si bien se elevan según aumenta el consumo, ello responde al señalado fin de racionalizar el consumo del vital líquido, para hacer de él un uso eficiente, considerándolo en sus adecuadas dimensiones como un elemento de altísimo valor.

La reestructura tarifaria es transparente y de fácil aplicación e interpretación para el público usuario, comprensible y que no requiere de parámetros, tablas o factores externos para su cálculo, salvo para los consumos de agua superiores a los 300 m³ para lo cual se establecen reglas igualmente claras.

También resuelve en forma moderada el rezago existente en la tarifa correspondiente al uso doméstico en zona económica del área metropolitana de Querétaro, en relación con las tarifas de las demás zonas socioeconómicas de este uso en dicha área. Por otra parte, responde parcialmente a la problemática que subsiste respecto del rezago en las tarifas en el interior del Estado, considerando el nivel de marginación que se tiene en las diferentes comunidades, homogeneizando las tarifas de uso doméstico en la zona económica del área metropolitana de la ciudad de Santiago de Querétaro con las del uso doméstico de las cabeceras municipales de la zona media que en este mismo Acuerdo se especifican, así como las relativas al servicio de agua potable respecto de los usos comercial, industrial, público urbano, público concesionado y beneficencia en todo el Estado.

La reestructuración tarifaria respeta la clasificación de las tarifas en el uso doméstico por zonas socio-económicas determinadas con base a la clasificación de colonias realizada por la Comisión, tomando como parámetro el registro que tiene la Dirección de Catastro y el H. Ayuntamiento de Querétaro, conforme a las condiciones de infraestructura, densidad de población y ubicación geográfica. Lo anterior, considerando el insoslayable deber de este organismo público descentralizado de apoyar a los usuarios que se encuentran en condiciones socio-económicas menos favorables.

Las tres tarifas de uso doméstico aplicables en la denominada área metropolitana de Querétaro que comprende la ciudad de Santiago de Querétaro y las demás zonas alrededor de la misma determinadas por la Comisión Estatal de Aguas, se establecen en forma diferenciada hasta un rango de consumo de 50 m³, a partir de este consumo se unifican sin distinguir las zonas socio-económicas. Lo anterior, con la finalidad de evitar el desperdicio del vital líquido. La tarifa mantiene la diferenciación de rangos de consumo en cada zona socio-económica, a fin de no afectar a aquellos usuarios que se encuentran dentro de los estándares normales de consumo de su zona.

Por otra parte, se establece una tarifa accesible que más adelante se expresa, denominada tarifa uso Beneficencia, aplicable a las Instituciones de Asistencia Privada que determine la Junta de Asistencia Privada; a las demás organizaciones de particulares que determine el Consejo Directivo que realizan en forma comprobada una labor altruista y de asistencia social en beneficio de los necesitados y que no cuentan con los recursos necesarios para cubrir sus requerimientos, entre ellos los servicios que le presta la Comisión Estatal de Aguas; y a los Centros de Salud del Sector Oficial y de Asistencia Social del Sistema para el Desarrollo Integral de la Familia (DIF), que también determine en forma específica el Consejo Directivo en razón de su finalidad asistencial, debiendo subsistir la vigencia del Acuerdo Octavo del mismo publicado en el Periódico Oficial del Gobierno del Estado de fecha 1 de octubre de 1999, en tanto no se haga dicha determinación.

Las tarifas contenidas en el presente acuerdo constituyen un instrumento para la utilización eficiente del agua en los diferentes usos, estableciéndose para un consumo superior a 300 m³ límites inferiores y superiores de consumo en cada rango, determinando una cuota base para cada límite inferior y en caso de excederlo, se realiza el cobro de los metros cúbicos adicionales a un precio específico por cada metro cúbico consumido, conformando de esta manera la estructura para los rangos superiores a 300 m³. con una tendencia diferente al criterio ascendente de los primeros 300 m³., a fin de evitar incrementos desproporcionados.

Por otra parte, en el presente Acuerdo se ajustan diversas tarifas previamente autorizadas que se encuentran en aplicación, conforme a los costos de operación, insumos necesarios para la prestación de los servicios que amparan, así como por la depreciación y amortización de los bienes mediante los cuáles se prestan y conforme a la previsión de inversiones futuras, siendo las siguientes: tratamiento de lodos y aguas de fosas sépticas de procedencia doméstica, tratamiento de lodos y aguas residuales de procedencia no doméstica, ambas susceptibles de ser tratadas en las plantas de la Comisión Estatal de Aguas, agua potable vendida en garzas, agua tratada distribuida vía red y agua tratada vendida en garzas.

Con base en todo lo anterior y con fundamento en las disposiciones constitucionales y lega-

les arriba mencionadas, el Consejo Directivo de la Comisión Estatal de Aguas, aprueba el siguiente

tal de Aguas en el Estado de Querétaro, y la adecuación a su estructura tarifaria, como sigue:

A continuación se presenta un ejemplo de cómo se determinaría el monto a pagar en consumos superiores a 300 m3, en función de la tarifa que le corresponda.

EJEMPLO: Para un consumo de 325 m3 en uso doméstico económica del área metropolitana de Querétaro

- 1) Se localiza la tarifa a aplicar de acuerdo al uso contratado y zona socioeconómica del predio
- 2) Se ubica el consumo del usuario en el rango correspondiente **ejemplo: Para un consumo de 325 m3, límite inferior 301 y límite superior, más de 301 m3**
- 3) Localizar la cuota base aplicable a este consumo, **en el ejemplo \$ 4,206.17**
- 4) Al consumo del usuario, restarle el límite inferior, **ejemplo: (325 – 301 = 24 m3 adicionales)**
- 5) El resultado del punto 4, se multiplica por la cuota por metro cúbico adicional \$19.80 **ejemplo: (24 x \$ 19.80 = \$ 475.20)**
- 6) Al resultado del punto 5, sumar la cuota base, **ejemplo:(\$ 475.20 + \$ 4,206.17 = \$ 4,681.37)**
- 7) El total a pagar en el **ejemplo de 325 m3 es de \$ 4,681.37**

TARIFA USO DOMÉSTICO ZONA ECONÓMICA ÁREA METROPOLITANA DE QUERÉTARO			
Límite Inferior (m3)	Límite Superior (m3)	Cuota Base (\$)	Cuota por m3 adicional (\$/m3)
